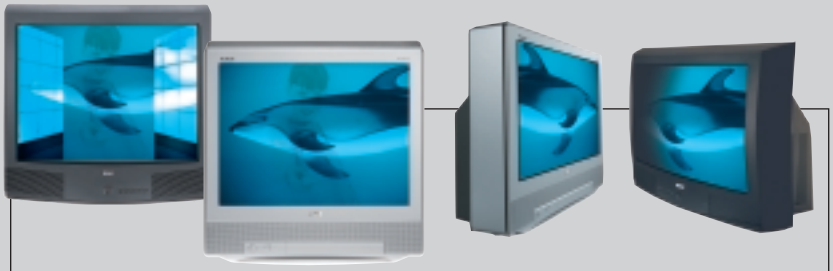
Picture

The TruFlat™ Tube Difference



TruFlat™ tube design reduces peripheral screen reflections by over 60%.

The TruFlat™ design offers a wider effective viewing area from any angle.

TruFlat models reduce the reflected image field by greater than 60% compared with standard tubes, while allowing a totally visible screen, even when viewed off-axis. This means placing the television in your home just became easier. Viewers sitting off-angle now see less reflection, less glare, and all viewers have a wider viewing angle allowing the entire screen to be seen.

Using specialized phosphors and improved circuitry, detail clarity with any TruFlat model, particularly with DVD images, adds on-screen realism. Combined with RCA's new Cross-Bridge Unified Chassis designs, modern cabinets, and the latest sound enhancement systems, TruFlat technology will amaze.

TruFlat™ Engineering Performance

RCA engineers developed an extensive quality control and evaluation program for the new TruFlat models. Using RCA worldwide research and development personnel, a new comprehensive test program was developed for each TruFlat model. As further support for the quality, a limited one year parts and labor warranty* is provided with all TruFlat models, 20" and larger.

*Please see RCA dealer or visit www.rca.com for complete details.

- **Adjustable Picture Control**
  Custom picture settings are just a button-press away. Adjust and store Contrast, Color, Tint, Black Level, and Sharpness settings for personal picture performance depending on your own individual tastes.

- **181-Channel Tuning Capability²**
  Digitally-controlled frequency synthesis tuning system "locks on" to cable and standard signals with unsurpassed accuracy.

Remote

- **Master Touch® Universal Glo-In-The-Dark Remote CRK76TW1**
  Provides complete operation plus control of the primary functions for many brands of remote-controllable VCRs, cable boxes, and RCA®-DIRECTV™ Systems.

Sound

- **MTS Broadcast Stereo Reception**
  Receive and record stereo sound from MTS (Multichannel Television Sound) stereo TV broadcasts, where available.
- **Low-Noise Pre-Amplifier**
  100% of all incoming and outgoing audio and video must travel through pre-amplifiers. A poor design can cut performance significantly, even if high-quality camcorders and DVD equipment are connected. Stressing compatibility and performance, RCA engineering design assures both audio and video noise are minimized. With distortion reduced, pre-recorded movies sound richer, clearer and more distinctive. Visually all movies, including home movies copied from high-quality camcorder tapes, play back with added performance and quality.
- **Second Audio Program (SAP)**
  Decodes the second audio program available on some broadcasts.
- **Front-Fired Speaker System**
  Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.
- **Sound Logic™ Audio Leveler**
  When turned on, eliminates the annoying "blast" of sound during commercial breaks. Additionally, soft sounds are amplified, maintaining a constant volume level.

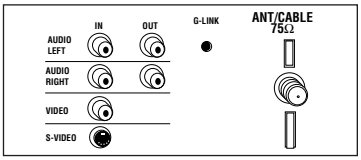
Convenience

- **GUIDE Plus+ GOLD[1] Interactive Program Guide**
  Find out What's On! The GUIDE Plus+ GOLD[1] Program Guide is a FREE, built-in service that provides instant listings of all your TV shows at the touch of a button. View listings up to seven days in advance and enjoy the capability of One-Touch Recording to your VCR. And, you can check out up-to-date national and world news stories from MSNBC in the News Guide. Comprehensive coverage includes business, sports, and entertainment news.
- **Advanced Auto Channel Search**
  Auto Cable/Air Switch sets tuner to cable or "off-air" frequencies during initial setup. Then system automatically scans for and locks active channels into channel memory.
- **On-Screen Menu System**
  On-screen displays make it easy to adjust more picture, sound, and convenience features from either the remote control or the TV front panel buttons.
- **Interactive Setup Menu**
  Convenient on-screen menu system automatically steps user through the initial setup procedures.
- **Trilingual On-Screen Display**
  Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).
- **On-Screen Time and Channel Display**
  Displays time and channel number during channel change or at the press of a button.
- **Programmable Timer System**
  Convenient scheduling system can be used in a variety of ways:
  –Sleep Timer
  Automatically turns off the TV after a preset time period—for those times when you drift off to sleep in front of the television.
  –Alarm Timer
  Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.
- **V-Chip Parental Control**
  Puts control back into the hands of the viewer by blocking unwanted television broadcasts with U.S. Government required circuitry. Blocks three types of programs: regular television programs, broadcast movies and unrated programs.
  Program rating information is sent by the broadcaster continuously during the program. The television will match program rating to user preference and block the entire program (when program is aired with the encoded signal). User preference is secured using a four-digit password.
- **Caption Vision CC Closed Caption Capability[3]**
  Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).

Connections

- **Front and Rear Audio/Video Inputs**
  Allows quick, easy access for direct audio and video connections for additional VCR, video game or video source. Includes rear S-Video input.
- **Stereo Headphone Jack**
  Listen privately with optional headphones.
- **S-Video Input**
  Direct Y/C input connects TV to compatible S-Video source (e.g. DVD player, RCA®-DIRECTV™ System, S-VHS, VCR/Hi8 VCR/ Camcorder, or Internet set-top device) for improved clarity.
- **G-LINK[1] Connector**
  The G-LINK1 connector allows the GUIDE Plus+ GOLD[1] Program Guide work with your VCR (enabling one-touch record) and/or cable box (ability to tune directly to a station when the program guide is on your TV screen).
- **Fixed Audio Outputs**
  Connect TV to an external AV receiver or power amplifier to create a true home theater setup.
- **Front Panel**

- **Back Panel**



Specifications

	F20TF10
Screen Size (diagonal)	20"
Finish	Silver Diamond
